

COMPANY SAFETY POLICY

The Board of Directors recognise their responsibility to ensure as far as is reasonably practical the Health & Safety of our workforce at their place of operations and the company safety statement is compiled in compliance with current safety legislation.

Our objective is to ensure the protection of all persons from personal injury or sickness arising from hazards at the place of work and to implement procedures to ensure maximum results from our efforts.

The responsibility for implementing our safety policy on a day to day basis will be a prime management function of all Project / Contract Managers, Supervisors and site Safety Offices/Advisors including all head of departments of workshop and at our office premises. All information relating to safety will be provided to all safety and training objectives.

The company will endeavour to, where possible, comply with and exceed all applicable Irish and EU legislations, codes of practice and Best Known Methods (BKM)s and will continue to develop policies and procedures that will provide guidance to all personnel on their responsibilities for meeting or exceeding these requirements.

The company will provide adequate training and information to ensure that all personnel understand good practices and statutory requirements.

The company will strive for continuous improvement in its safety performance through regular planning, monitoring, and auditing to ensure that its policies and procedures are followed and updated when required.

All personnel must work together to develop the correct attitude, practice and promote work habits, to ensure that the company can comply with all statutory legislation and protection of the environment.

The company also expects a sincere commitment from our workforce to eliminate as far as is reasonable any work practice that could become hazardous to any person or property.

A copy of our safety statement is filed on head office and is available to all personnel and Sub-contractors. The content is communicated to all personnel through training courses, toolbox talks and circulars, Safety Representative and Safety Committees.

The under note person is nominated to control and guide the company safety plans and to ensure that procedures are updated in line with the company's future development.
